PROFILE:

I am a dedicated and analytical individual with a strong foundation in software development, user experience design, and IT project coordination. As a frontend developer with experience in React and UI/UX tools like Figma, I enjoy building responsive, visually engaging web interfaces. I'm currently sharpening my skills in full-stack development, APIs, and data structures. My approach blends technical precision with user-centered thinking, ensuring functional and intuitive digital experiences. I'm also proficient in Microsoft Office and familiar with collaborative platforms, making me an efficient and reliable team contributor.

EDUCATION AND QUALIFICATIONS

2023 – Date, University of Ghana, Accra – Ghana, **BSc. Information Technology**

2019 – 2022, Achimota School, Accra – Ghana, **WASSCE (Science/Geography)**

2016 – 2019, Deyoungsters International School, Accra-Ghana, **Basic Education**

WORK EXPERIENCE

Freelance UI/UX & Frontend Developer

Silquess Brand (Ongoing)

- Designing a complete UI for Silquess, a clothing and accessories brand, using **Figma** with a strong focus on user experience and mobile responsiveness.
- Developing a functional and modern website for the brand using **HTML, CSS, JavaScript, and React**, optimized for performance and user accessibility.
- Coordinating with the brand owner to gather requirements, iterate on designs, and provide regular updates.
- Redesign of the CalBank App, tackling usability issues and including an interactive prototype to simulate user flow.

Project Coordinator & QA Tester – BookHive (DSA Project)

University of Ghana – July 2025

- Oversaw collaboration among team members, ensured bugs were resolved, and maintained alignment on key milestones.
- Led functional testing and validation of a console-based book inventory system using **Java** and data structures like BSTs and Lists.
- Provided feedback and direction on code integration and project flow and structure.

Software QA & Testing Support – Academic Projects

University of Ghana – 2024–2025

- Focused on testing and quality assurance in group coursework for *IT Project Management* and *Software Engineering*.
- Used tools such as **Chrome DevTools**, **Google Lighthouse**, and manual testing strategies to analyze and optimize project performance.
- Documented bugs and collaborated with team members to improve usability and code functionality.

UI/UX Designer

Techora Solutions Intern – Nov 2025 to Jan 2026

- Contributed to product innovation initiatives by translating business requirements into intuitive, user-centered interfaces.
- Collaborated with developers and product stakeholders to iterate on designs based on feedback and usability reviews.

KEY SKILLS

- **UI/UX Design:** Skilled in designing intuitive, visually appealing user interfaces using Figma. Experienced in translating user stories and project requirements into functional prototypes, with a strong understanding of usability principles and design consistency.
- **Frontend Development:** Proficient in HTML, CSS, JavaScript, and React. I build responsive and accessible interfaces with performance optimization and user experience as top priorities. I also integrate design and development workflows seamlessly.
- **Microsoft Office Suite (Word, Excel, PowerPoint, Outlook, Teams):** Proficient in Microsoft Office Productivity tools for documentation, presentations, and reports. Skilled in using productivity platforms and communication tools for both academic and freelance projects.
- **Time Management & Organization:** Balance academics, freelance work, and skill development efficiently by setting priorities and sticking to deadlines.

- **Communication & Teamwork:** Work well in team environments, contribute actively to group discussions, and provide regular feedback or updates to team members and stakeholders.
- **Internet Savvy:** I am highly in navigating web platforms, research effectively, use online tools and resources, and troubleshoot common technical issues independently.
- **Tools & Technologies:** Comfortable with VS Code, Figma, Tailwind CSS, GitHub, Netlify, Vercel, and Chrome DevTools. Always exploring new tools to optimize productivity and project quality.
- **Version Control & Collaboration:** Use Git and GitHub for version control, contributing regularly to personal and group repositories while following standard collaboration workflows and branching strategies.

INTERESTS

Passionate about technology and interactive media, especially through video games, UI/UX, and cinematic storytelling. I also enjoy playing the piano, listening to music, and watching films that inspire creativity and design thinking.
